WELCOME TO
The School District of
OMRO
The Little School District with a BIG Heart for Kids
HELLO, OMRO.

Whether or not you live in Omro’s beautiful bedroom community, our school district is the perfect size for families and students. Small enough for personalized learning but big enough for boundless curricular and extracurricular opportunities. We educate the whole child, catering to each student’s academic, social and emotional needs. We have virtual learning programs.

SCENIC VIEWS

Located on the banks of the breathtaking Fox River, the School District of Omro serves 1,227 students in Grades 4K-12 who live across a 99-square-mile area that offers abundant scenic views.

SMALL CLASS SIZES

Omro Foxes - we’re the Foxes from kindergarten to high school - start with small class sizes and low student-to-teacher ratios in the critical years of 4K through 1st grade. We are proud to have been raised as an Omro Fox and raised my family here also. I’m proud to have been raised as an Omro Fox and raised my family here also.

21 COLLEGE CREDIT COURSES

From there, students advance to Omro Middle and High Schools, located on a combined campus, where they can choose from a plethora of courses, clubs and activities to develop their passions and build a successful post-secondary pathway. Omro High School is home to powerhouse national award-winning student engineering teams, a cutting-edge Fab Lab, high-quality, caring teachers who go the extra mile for their students, and academic offerings that include 21 dual credit college courses, youth apprenticeships and much more.

STUDENTS WIN NATIONAL STEM COMPETITION: DISTRICT EXPANDS ITS FAB LAB & CHILD CARE PROGRAMS

OMRO STUDENTS WIN NATIONAL STEM COMPETITION: DISTRICT EXPANDS ITS FAB LAB & CHILD CARE PROGRAMS

OMRO HIGH SCHOOL is becoming a dominant player in the annual national Samsung Solve for Tomorrow Contest. In 2018 a student team led by teacher Robert Turner finished in the Top 10, earning $50,000 for an environmentally-friendly window shade cooling system. In 2020, Omro students were national champions, designing a robot that travels on ice to measure its thickness for ice fishing safety. They won $100,000 in supplies for the school’s new fabrication lab. In 2021 Omro’s team once again placed nationally with a tire design to reduce harmful microplastics. But STEM is just one of OHS’s specialties. Students are excelling in the culinary and child care fields and earning industry certificates and dual enrollment college credits as they serve elegantly-plated meals or assist kindergarten teachers. OHS also has growing Youth Apprenticeship job placements in many industries, getting real-world experience after classes.

78.6% of graduating seniors are attending college or other career programs.

AWARD-WINNING STAFF

Omro has highly qualified teachers and staff. One of our principals was nominated for a Herb Kohl Principal Leadership Award. A high school science and engineering teacher has helped students win national STEM (Science, Technology, Engineering, Math) awards and earn more than $100,000 in technology upgrades. An elementary teacher won the WCASS (Wisconsin Council of Administrators of Special Services) General Education Inclusive Practices Teacher Award.

ENGAGING ACADEMICS

Our teachers help bring academics to life with real-world experience and applications. Many also serve as coaches for sports teams and advisers for clubs and activities, building deeper connections with students in and out of the classroom. We are proud of our staff and students and we are excited to welcome new students to our community!

CONNECT

For more information about our district, please visit our website or our Facebook page.
COME VISIT OUR SCHOOLS - TAKE A TOUR!
More than 30 new families joined our district in 2020-2021, many after touring our updated facilities. We welcome visits and will give you a personal tour! Email us to schedule and see the great things happening in Omro Schools.

4K, AFTER-SCHOOL PROGRAM AND VIRTUAL LEARNING
Omro proudly offers:

- Omro 4Kids, a 4-year-old kindergarten program for children who reside in or open enroll into the Omro district. Register at omro.k12.wi.us/hbp/omro_4kids.cfm

- A K-5 after-school program at Omro Elementary, with students bussed from Patch. The Boys & Girls Club of Oshkosh runs the program Monday-Friday until 5:30 pm.

- Virtual Learning options for families engaged in home schooling or for whom full-time, in-person learning is not the best fit. Contact the principal to connect with our Virtual Learning Navigators to learn about options!
