JANUARY 2022

DEAR SCHOOL COMMUNITY,

A strategic plan should be a living document that takes an organization on a journey; a roadmap that reflects the trajectory of work between what is learned, believed and imagined. In Nyack Public Schools, we wanted to capture the pillars, strategies, aspirational outcomes and competencies laid out in our district’s plan for the community to visualize with clarity. Here, we provide you with a snapshot of our Strategic Plan for Excellence Through Racial Equity. We are excited to present this piece as the first in a series of publications and videos designed to inform our stakeholders and promote the foundational work of equity, innovation and optimism aligned to the 7 C’s: Critical Thinking, Creativity, Collaboration, Communication, Compassion, Content Mastery, Cultural Responsiveness. Please take a look and join us on this journey towards providing a world class education for each student in the Nyack Public Schools.

Model the way,

Eudes S. Budhai, Superintendent of Schools

Terence Rock, Board of Education President

VISION The Nyack Public Schools value the richness of our diverse community. This assertion is founded in the Board of Education’s Mission Statement approved in its policies. We believe that all children are born with sufficient innate ability to achieve school tasks, and that it is our ethical and moral responsibility to ensure our school district provides an optimal learning environment that meets the needs of all students regardless of race, gender, gender identity, sexual orientation, socioeconomic status, first language, religion, national origin, age or differently-abled.

MISSION The mission of the Nyack Public Schools is to provide each student with programs of excellence that instill a passion for learning while preparing them for the challenges of an increasingly complex world. The Nyack Public Schools will enhance each student’s self-esteem, help them discover and maximize their individual potential, and guide each to dignify, appreciate, respect and accept human diversity.

GOAL The Nyack Public School District’s equity goal is to create a district-wide and building-based climate and culture that demands and supports systemic equity and improved student achievement for every student while narrowing the predictable gap in measurable outcomes.
FOUR PILLARS of the STRATEGIC PLAN for EXCELLENCE through RACIAL EQUITY

CULTURALLY RESPONSIVE WORKFORCE
We must have the knowledge, beliefs, skills, attitudes and practices that allow individuals to form relationships and create learning environments that support academic achievement and personal development of learners from diverse racial and cultural groups.

Prioritized Strategies for 2021-22:
- Establish Professional Learning Communities and other professional development structures to address both systemic racism and its manifestations.
- Provide an Equity Certification In-Service Credit Program offered to all District teachers.
- Develop partnerships with Historically Black Colleges and Universities as well as colleges and universities with diverse teacher education programs to target recruitment and hiring initiatives.

CULTURALLY RESPONSIVE TEACHING AND LEARNING
We must provide all students with rigorous, culturally responsive and engaging learning environments that accelerate their academic achievement and personal growth.

Prioritized Strategies for 2021-22:
- Establish curriculum teams responsible for reviewing curriculum and revising instructional units to ensure our curriculums are culturally responsive.
- Create courses and units of study that are specific to learning about diverse cultures represented in the state of New York in a way that is comprehensive and empowering.
- Develop school-based Equity Teams to make recommendations regarding practices, policies and procedures to interrupt and transform school cultural norms that maintain institutional racism.

CULTURALLY RESPONSIVE FAMILY AND COMMUNITY ENGAGEMENT
We must reach beyond the hallways and classrooms of our schools to engage all families and stakeholders; to organize cross-sectors in collaboration; and ultimately to build bridges between our schools and beloved community that uphold anti-racist beliefs, protocols, practices and policies for the benefit of all children.

Prioritized Strategies for 2021-22:
- Encourage parents/guardians who reflect the diversity of our students to participate in parent leadership roles in the schools/district.
- Develop multiple engagement systems to expand access to and communication with families of diverse backgrounds.
- Build ongoing trust equity and consensus for common analysis, language, understanding and support of anti-racist principles between district families and staff to create lifelong learners.

CULTURAL AND ORGANIZATIONAL TRANSFORMATION
Our school system must undergo a cultural and organizational transformation to build a culture of inclusion that actively challenges institutional racism. The Board of Education and Administrative Leadership Team must actively examine and dismantle systemic policies, programs and practices that serve to perpetuate racial achievement disparities.

Prioritized Strategies for 2021-22:
- Utilize an equity lens in developing all areas of teaching and learning, program development and institutional practices.
- Utilize Cycle of Inquiry Framework at each school level through building-level Equity Teams and action plans developed annually through building-level student data analysis.
- Assess school climate using a variety of measures to collect diverse stakeholders perceptions and experiences.

“Education is for improving the lives of others and for leaving your community and world better than you found it.”
—Marian Wright Edelman

**2 QUESTIONS THAT INFORM POSITIVE CHANGE:**

How well are we preparing each student for a rapidly changing and increasingly complex world?

How well are we meeting the needs of each student?
