SVPA Training: 14 high school students learned the art of crafting public service announcements. Each created a PSA based on their thesis paper topic. The top three received awards.

SVPA Influence: Each student posted their video on the internet with up to 300 viewings. By starting with high school students we build the right attitudes towards the profession of psychology. Friends and parents now realize psychology isn't to be feared.

SVPA Volunteers:
Amy Ahlfeld, Past President
Daniel Rockers, President-Elect

Health Professions High School Instructor:
Deborah Melvedt

Partner:
Health Professions High School, Sacramento
